

# CANTEEN MANAGEMENT SOFTWARE

# Software Details

Many organizations provide canteen facility to its employees, but proper management of meals per employee is a cumbersome task. The software design provides a user friendly system that facilitates quick and efficient operation to cover larger section of employees for an organization. The software also provides paperless and cashless transaction solution and also has network based solutions to operate multiple counters simultaneously in a closed environment.

## Features :-

- Network/Intranet based solutions to handle multiple counters in closed environment
- Easy swapping system on counter with transaction verification facility(Barcode, Proximity, smart card, thumb scanning)
- Maintains employee database with photograph which in turn also helps in maintaining all employee records.
- Advance information on the usage of the canteen facilities by the employees on any particular day or shift can be notified to the caterers.
- Special rules & regulation can also be integrated within system. E.g. ID card validity checking, Same ID card is not applicable for same day with same shift time etc.
- Details for Daily/weekly/monthly/yearly report meal taken by employee
- Account report daily /weekly /monthly/ yearly
- Bill printing on daily/ weekly/ monthly basis

## Advantages :-

- Easy to integrate with company's existing ID Card System (Barcode, Proximity, Smart card)
- Photograph verification and employee details records
- Easy Report printing with all the criteria combination
- Maintain and Generate report of individual employees/contractor wise/subcontractor account on daily/weekly/monthly/yearly basis
- Export to Excel, CSV and PDF options are available
- Tailor made reporting can be developed as per requirement.
